

Simy Casasola
Healthcare Supervisor, Area 80-Georgia South
Walgreen Co.

Simy Casasola is a Healthcare Supervisor for Area 80- Georgia South for Walgreens. I found my passion by being a pharmacist and a pharmacy leader in helping patients, community and others. I have mentored so many students and people to find their passion and help them to continue to grow personally and professionally. I have held various positions with Walgreens and my position as a manager at specialty pharmacy helped me further help patients with complex disease states. As a Healthcare Supervisor, I support and collaborate with various leaders including community leaders to drive COVID-19 vaccination efforts, embracing health equity and providing best patient care to our communities.

When not working I enjoy watching TV especially Indian movies, shopping, helping my husband at home, attending different school activities for my 2 kids and spending time with my family.
