

**KEN BRADLEY, Chief Health  
Innovation Officer  
Vivlio Health**

Ken has spent his life clearing the way for the ultimate connections of data. Ken's responsibility is to help ensure Vivlio remains in front of statutory and legal requirements and help establish partnerships and relationships to bring practical, seamless interoperability to the healthcare community and their patients. Ken works closely with standards organizations and monitor industry initiatives to inform, guide, collaborate and project future needs for Vivlio and its network.

Ken's gray hair is attributed to the 30 plus years working in healthcare. Prior to Vivlio, Ken co-founded Navicure, a SaaS medical practice revenue cycle management company. Established in 2001, before merging with Waystar, Navicure had over 100,000 billable providers and consistently maintained first or second in KLAS rating. At Navicure, Ken help build data exchange processes that connected thousands of providers, payers and health IT vendors. Before founding Navicure, Ken led the development a claims management clearinghouse at NDCHealth's Provider Healthcare Transaction Group.

Ken graduated from Purdue University with a bachelor's degree in Systems Analysis and a minor in Business.

#### **QUOTE**

*"Be good to your word."* — Paul Bradley

#### **FUN FACT**

I love to travel not only to experience other places but also perspectives.
