Jennifer Giusti, RN, MPA, BSN

Jennifer is Vice President of Clinical Outcomes at Wellstar Health System. Prior to joining Wellstar 5 years ago, Jennifer held various Quality Executive roles at Sutter Health in California. Her experience includes oversight of enterprise-wide programs in: Patient Safety, High Reliability Organizing, Quality Management, Data Analytics, Publicly Reported Data, Lean, and Project Management. Her responsibilities have included integration and coordination of these areas across acute hospitals, clinical service lines, ambulatory care, and clinically integrated networks. Her aim is to enhance the value patients and consumers receive when interacting with all aspects of the health care delivery system.

With more than 20 years of progressive leadership, Jennifer has a unique ability to leverage complex data and technology, influence change and utilize proven improvement methodology on a large scale. During the early phases of the pandemic, her team rapidly developed interactive Covid Dashboards and implemented innovative approaches to ensure compliance with mandatory Covid data reporting at the Federal and State government level. She has experience with integrating Artificial Intelligence and Machine Learning to improve patient safety and quality outcomes for large populations of patients.

Jennifer holds a Master Degree of Public Administration with a Health Services Management emphasis from Golden Gate University in San Francisco, CA. She earned her Bachelors of Science in Nursing at Samuel Merritt University in Oakland, CA and began her career as a Registered Nurse specializing in Critical Care.

Jennifer currently serves on the Board of Directors for The Center for Family Resources in Cobb County. And, she recently had an editorial published in the journal, MedTech Outlook titled "Will Technology Solve Healthcare's Woes?".
